

Riverview Preschool Learning together

February 24th 2021

It has been a great start to the year, all the children have been adjusting well to the kindy routine and forming friendships. They have been doing lots

Reminders:

- Remember to keep packing your child's hat as the children are required to wear them throughout Terms 1 and 4 at all times for outdoor play and throughout the year when the UV rating is high.
- PLEASE NAME EVERYTHING!
 Lunchboxes, hats, bottles, bags etc.
 It makes everything really easy for us educators.
- Please remind your child not to bring in toys from home as they get lost and we would hate for them to have their toys misplaced.
- Please pack spare change of clothes remembering to pack underwear also for accidents
- At drop off the children's packed healthy lunches are to be placed in the red or blue tubs, their morning healthy snack is to be packed separately and kept in their bag for the easy access by the children. Their water bottles go in the blue trolly.

If your child is unwell or cannot attend Kindy please let us know

School visits

We have started our visits with Riverdale Primary School, the reception and year 1 classes have joined us in week 4 interacting with the kindy children and all exploring the kindy together.

Lunch in tub

Sessions start 8:45am to 2:45pm

<u>Fridays Session times for</u> term 1

One Friday session fortnightly dates which run on odd weeks are :

Week 5 Feruary 26th

Week 7 March 12th

Week 9 March 26th

Week 11 April 9th

ALLERGY WARNING

We are a nut aware centre as currently we have children with nut allergies. So a **REMINDER** to not send your child with peanut butter or Nutella sandwiches, to only send food that doesn't contain traces of nuts (which can be found on the packaging usually on the back of the packet with the food information) Arnotts brand usually contains traces of nuts so is not suitable.

The reason why we are so strict on the matter is because food allergies can be extremely dangerous to the effected children as they can go into Anaphylactic shock, and suffer many severe symptoms when they come into contact with the allergen.
